

Term 1 Diagnostic Exams – Grade 5-9

Dear Parent/Guardian,

Diagnostic tests are done in the beginning of each academic year to test the students' retention of basic concepts taught the previous year. This year, the diagnostic tests will be taken online, through the SDP.

Sample (practice) questions are uploaded to SABIS® Digital Platform under **Exam Preparation**. All students need to review the sample questions before the diagnostic test is taken.

The diagnostic tests will also be found under **Exam Preparation**, under the **Exam Practice/Documents** tab.

Please note that it is very important that students take the diagnostic tests seriously and do them without any help. The information from the diagnostic tests will give us valuable information to support the individual students.
